GENERAL

**UPDATE ON THE NEW ONLINE EXAMS - CATEGORY: WCM, CCM, LSA, GYRO, TMG
REF: RAC 01-06/14 (10 June 2014)**

Published date: 20 October 2014

We are pleased to report, the proposed New Online Exams have been audited by Instructors from all disciplines during September 2014.

The audit process checked for:

Content applicability,
Accuracy of statement and answers,
Spelling and grammar errors,
Percentage or marking structure,
Prevention of ambiguous statements.

Over 1000 questions were reviewed, and comments from the panel of instructors included some of the following excerpts:

"Found all exams level higher than present, will require more studying. Questions are fair, not too advanced".

"They are well put together and cover the subjects well".

"Well done".

"The standard is high and the type rating questions are good".

"The exams are generally fair and should be passed by a student with a reasonable aptitude".

"Cleverly set out - well done"..

Comments about the exams made by the panel during the audit are being attended to and the relevant corrections will be made.

A successful test on the exam system using the new marking system with regards to different marks allocated to the various questions has been achieved.

We expect the on-line database will change by the end of November 2014.

A final circular will be sent out at least 14 days in advance of the databank change. All Instructors are therefore encouraged to keep an eye on the RAASA website for Circular up dates.

RAASA is designated and dedicated to serve the recreational flyer!
